# Task 3

---

Write a program which reads a natural number $n$ and writes on the console a symmetric 'cross' consisting of asterisks: each 'arm' shoud have width and height equal to $n$. For example, for $n = 3$ the result should look like this:

```
    ***
    ***
    ***
*********
*********
*********
    ***
    ***
    ***
```

---

*Deadline: Apr 8 (inclusive)*

---

*Put yout Java file(s), and only Java files, in a directory the name of which is your surname (without Polish or any other non-ASCII characters). Names of Java files are arbitrary, although of course they should correspond to names of classes you created. Zip the whole directory ("from above" — not just the files inside it). Then drop the zip file created in this way into folder "Tasks / Task_XX" of the GAKKO system (where 'XX' is the task number).*
